

Progress Sheet

Smart App

DOBOSZ – FELTRIN – FONTAN

7/04/2020

What is done

- **Global structure** of the application : all pages (activities) created, on which we can rely.
- **Main** page : main access to all other activities.
- **Registration** page for **new user** : contains information to send to Authentication group. → via text file.
- **Connection** page : able to connect with email & password.
- **Global information** about the WebSite / Application
- **Contact** : user can find phone number, address, email of the enterprise.
- **Map** Creation : mainly for the doctor. → shows the doctor's journey (medical visits) on a map
- **Touch Tracking** : positions of touches and touch time. }
- **Touch Test** : user must follow a shape } Will be send by text file to the Behavior Analysis group

In Progress

- Function allowing to register **String in text file** : possibility to transmit to other group → Communication

What remains to be done

- Add **Secret Question** to Registration Activity
- Allow the **access to the camera & send** the video.
- **Add Disabled Button** → Logs In disabled person with Facial recognition
- Add **"Forgotten Password"** in Log in Page → Use the facial recognition
